**SUBJECT: OPERATOR LICENSING EXAMINATION APPROVAL**

Dear Mr. Pearce:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at the Perry Nuclear Power Plant.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications in connection with this examination, and will separately provide a list of approved applicants to Mr. Terry A. Evans, Training Manager. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject examinations, and hereby authorizes you to administer the written examinations in accordance with Revision 9 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," the week of March 5, 2007. The NRC staff will administer the operating tests during the week of February 26, 2007.

Please contact Mr. Michael E. Bielby, Chief Examiner, at 630-829-9762, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS),
