ATTENTION MR. PAUL R. GUINN

Gentlemen:

Control No. 03186
License No. 47-00260-09

We recently received Amendment No. 12 to 47-00260-09, renewing our license until May 31, 1985. Everything appears satisfactory except for Items 7.A. and 8.A. On our initial application, we inadvertently omitted the model number of our 2.39 curie AmBe source. As a result, a limit of 1 curie per source was imposed (corresponding to the maximum activity of the model numbers listed on our application).

Please change 7.A. and 8.A. to read:

- 7.A. Sealed sources (Monsanto Research Corporation Models MRC-N-SS-W-AmBe, 2722-BT, or 2426).
- 7.B. Not to exceed 2.39 curies per source.

I am sorry for any inconvenience caused by this. If you have any questions or need more information, contact me at (304) 747-4918.

Thank you.

Very truly yours,

F. P. Straccia, Technical Center
Alternate Radiation Protection Officer
