CC: Harry Wagage; Michael Snodderly
George,

I believe that staff had provided you with the feedback that RAI 6.3-41 was resolved. However, after further review it is necessary for the information concerning the fuel assembly inlet orifice diameter and GDSC injection line diameter to be incorporated into the DCD so that staff can make a reasonable assurance finding in the safety evaluation report.

Please refer to the attached supplemental no. 3 for RAI 6.3-41.

Sincerely,

Shawn A. Williams
