Attention: Betsy Ullrich

June 6, 2007

Dear Ms. Ullrich:

The invoice from Chem Nuclear to dispose of all the high activity waste with the exception of the scrubber columns is \$282,274.00. Along with what we have already paid Solutient Technologies to characterize this waste, we have exceeded the original allocation of \$300,000 that SLC had originally requested by \$24,000.

SLC is requesting the allocation be bumped up to cover the additional cost. We expect to ship this waste somewhere around June 20, 2007. Chem Nuclear must have the check in hand before SLC ships the waste; therefore, expediency is needed in this matter.

If you should need any additional information, please do not hesitate to contact me.

Very Truly Yours,

Larry Harmon,
General Manager
