Subject: Re: Closing North Butte TAC No. JU0133

Paul,

Thanks for the up-date. We have contracted the responses to a consulting firm. They will be conducting a study on the Coal Bed Methane effects, if any, on our proposed area. the CBM Study will take approx. 1 year of data collecting and analysis to form reasonable conclusions, but we will reply to the other questions within the next few months.

Regards,

John McCarthy
