Dear Mr. Goorevich:

Enclosed for your information is an application from Global Nuclear Fuel - Americas, dated May 7, 2007, recently received by the U.S. Nuclear Regulatory Commission, requesting Amendment No. 01 to export license (XCOM1176-R). The licensee requests to: 1) extend the expiration date from December 31, 2007, to December 31, 2008; and 2) add drawings, manuals, and operating procedures for the equipment to be exported. All other conditions remain unchanged.

Since no other changes to the terms and conditions of the existing license are requested, we intend to issue this minor amendment after the 30-day time period allotted for public review expires and it is determined that applicable export license criteria are met.

Sincerely,
