SUBJECT: RESPONSE TO NRC INSPECTION REPORT 150-00017/07-001 AND NOTICE OF VIOLATION

Dear Mr. Witter:

Thank you for your letter dated May 29, 2007, in response to our letter and Notice of Violation dated May 18, 2007. We have reviewed your reply and find it responsive to our concerns. With regard to your response to the second violation involving posting, while we note that you posted the vault which is inside the darkroom, the regulatory intent is to alert other than licensee personnel to the presence of radiological hazards and to aid them in minimizing exposures. The circumstances of each case must be evaluated to ensure that posting practices do not detract from this intent by: (1) desensitizing personnel through over posting; or (2) failing to sufficiently alert personnel to the presence and location of radiological hazards. Thus, these postings should warn individuals of specific radiological hazards in the immediate vicinity. We will review the implementation of your corrective actions during a future inspection to determine that full compliance has been achieved and will be maintained.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA RALeonardi for/
