Houma, Louisiana 70363

SUBJECT: NRC INSPECTION REPORT 150-00017/07-001 (FORM 591M)

Dear Mr. Boudreaux:

This letter refers to the safety inspection conducted on June 5, 2007 at a temporary job site at Ship Shoal 358, Federal waters, Gulf of Mexico. The inspection was an examination of activities conducted under the General License provisions contained in 10 CFR 150.20 as they relate to safety and compliance with the Commission's rules and regulations and with conditions of the license. At the conclusion of the onsite inspection, a preliminary exit briefing was conducted with your radiographer onsite. A final exit briefing was conducted with Trent Loney on June 6, 2007. Additionally, during this final exit briefing, the inspector discussed the additional security measures (Increased Controls) required of licensees possessing and using radioactive material quantities of concern during licensed activities on temporary jobsites in offshore Federal waters.

Within the scope of this inspection no violations or deviations were identified; therefore, no response to this letter or the enclosed NRC Form 591M is required.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/Adams.html>.

Should you have any questions concerning this letter, please contact the undersigned at 817 860-8187.

Sincerely,
/RA/

Richard A. Leonardi, Senior Health Physicist
Nuclear Materials Inspection Branch
