Rockville, MD 20852-2738

Subject: NOTIFICATION PURSUANT TO 10 CFR 71.93(c)

Dear Mr. Rahimi:

On behalf of the U. S. Department of Energy Carlsbad Field Office (DOE CBFO), this letter is submitted in accordance with 10 CFR 71.93(c) to notify your office of our intent to fabricate two new TRUPACT-II Outer Containment Assemblies (OCA), package identification number USA/9218/B(U)F-85, within 45 days from receipt of this letter. This package currently operates under the U.S. Nuclear Regulatory Commission Certificate of Compliance Number 9218.

It is understood that Per 10 CFR 71.19(c)(1), a package approved by the NRC with the designation "-85" may not be fabricated after December 31, 2006. With this understanding, Washington TRU Solutions on behalf of the DOE CBFO is currently preparing an application for revision of the TRUPACT-II SAR. This application among other things will demonstrate compliance with the "-96" requirements as required per the applicable sections of 10 CFR 71.

The two OCAs' will be fabricated by Washington Government Environmental Services, LLC, Government Technical Services Division's Engineered Products Department (EPD) in Carlsbad, New Mexico. EPD will manufacture the two OCAs' under their USNRC approved Quality Assurance Program, docket number 71-0900 which expires July 31, 2016. Once completed, the two OCA's will not be placed into service until the approval of the pending "-96" SAR application for the TRUPACT-II is received from the USNRC.

If you have any questions on this issue or require additional information, please contact me at your convenience at (505) 234-7396.

Sincerely,

T. E. Sellmer, Manager  
Packaging  
Retrieval, Characterization and Transportation
