Summary:	In a letter dated May 1, 2007, the licensee requested that the authorization for 35.400 be removed from their license. Based on a review of the license, they were authorized for I-125 prostate seed implants and a Gd-153 source. Mr. Nunn stated that the licensee performed their last prostate implant approximately 4 years ago. He also stated that when the licensee recently moved their Hot Lab they did not find any seeds in storage. Mr. Nunn will discuss the disposal of the I-125 seed and whether or not the licensee ever possessed the Gd-153 source and get back to me ASAP.
