Subject: Thursday interview

Rhonda: We'd love to start at 10:30 a.m. if you can handle us at that hour and yes, we will bring a seal.

Would it be possible for us to see some examples of what you're going to use in advance of the interview, perhaps tomorrow or wednesday? If you have something we can look at I'll give you a Fed-Ex number. If not, we could look at it in advance of the interview to get a flavor which might help Roy focus the context of his answers some., but we'd want a few minutes afterwards for some private discussions to help Roy.

Also, I am bringing several folks, including a subject matter expert on research reactors so if there's a question where roy gets on shaky ground, we will want to take a quick break to give him some expert guidance.

I'm actually looking forward to this just for the fun of the joust!

Cheers.

Eliot Brenner
