**RE: License Closeout -Mail Control Number 140439**

Dear Mr Thompson:

This letter is in response to your request for more information regarding the termination of NRC License # 37-25197-01. As stated by Elena Pascucci the practice manager at CVI-NHills only their license is being terminated. The lab continues to operate under TTG- Nuclear Solutions NRC License #37-28520-01. The reason for the slightly elevated surveys is because radioactive materials continue to be used under our license. TTG Nuclear Solutions accepts the results of CVI-NHills final wipes and surveys performed on May 31, 2007.

Please feel free to call me if you have any other questions. 412-427-9284

Sincerely,

Donald Ashton, Executive Director
