SUBJECT: NORTH ANNA POWER STATION - NRC PHYSICAL SECURITY BASELINE
INSPECTION REPORT 05000338/2007402, 05000339/2007402

Dear Mr. Christian:

On May 25, 2007, the U. S. Nuclear Regulatory Commission (NRC) completed a security baseline inspection at your North Anna Power Station. The inspection covered one or more of the key attributes of the security cornerstone of the NRC's Reactor Oversight Process. The enclosed report documents the inspection results, which were discussed with Mr. L. Lane and other members of your staff on May 25, 2007. A re-exit was conducted with Mr. T. Maddy and other site personnel on June 20, 2007. This report also covers the inspection results of Interim Compensatory Measures specified in Independent Spent Fuel Storage Installation Order (TI2690), dated October 16, 2002, which was discussed with Mr. P. Kemp and other members of your staff on March 15, 2006.

This inspection examined activities conducted under your license as they relate to safety and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

Based on the results of this inspection no findings of significance were identified.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system, ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). However, because of the security-related concerns contained in the enclosure, and in accordance with 10 CFR 2.390 a copy of this letter's enclosure will not be available for public inspection.

In accordance with 10 CFR 2.390(b)(1)(ii), the NRC is waiving the affidavit requirements for your response, if any. This practice will ensure that your response will not be made available electronically for public inspection in the NRC Public Document Room or from the NRC's
