

June 19, 2007

U.S. Nuclear Regulatory Commission  
11555 Rockville Pike  
Rockville, MD 20852-2738

Attn: Document Control Desk

Subject: Schedule for Responding to the RAI for the Review of the NAC-UMS<sup>®</sup> High  
Burnup Amendment Application (TAC No. L24032)

Docket No. 72-1015

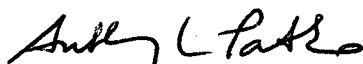

- References:
1. Certificate of Compliance No. 1015 for the NAC International, Inc. Universal Storage System (NAC-UMS<sup>®</sup>), U.S. Nuclear Regulatory Commission (NRC), Amendment No. 4, October 11, 2005
  2. Request for an Amendment of Certificate of Compliance (CoC) No. 1015 for the NAC-UMS<sup>®</sup> Universal Storage System to Incorporate High Burnup PWR Fuel as Approved Contents and Implement Changes to the Technical Specifications, NAC International, September 22, 2006
  3. Final Safety Analysis Report (FSAR) for the UMS<sup>®</sup> Universal Storage System, Revision 6, NAC International, November 20, 2006
  4. Request for Additional Information for Review of an Amendment for the CoC No. 1015 for the NAC-UMS<sup>®</sup> Universal Storage System (Docket 72-1015), U.S. Nuclear Regulatory Commission, May 30, 2007

In response to the NRC's request for additional information (RAI), dated May 30, 2007, for the review of the NAC-UMS<sup>®</sup> high burnup amendment application, we wish to inform you that we will submit the RAI responses by August 31, 2007. Should progress indicate the probability of completion by an earlier date, we will communicate with your office in a timely manner.

We appreciate the opportunity to provide the additional information requested by the NRC review staff and are looking forward to timely conclusion of the review and approval of the NAC-UMS<sup>®</sup> high burnup amendment application.

Should any member of the Spent Fuel Storage and Transportation staff wish to discuss the above, please feel free to contact me at 678-328-1274.

Sincerely,

Anthony L. Patko  
Director, Licensing  
Engineering
