Subject: AP1000 COL Standard Technical Report Submittal of APP-GW-GLR-079, (TR 26), Revision 1

In support of Combined License application pre-application activities, Westinghouse is submitting Revision 1 of AP1000 Standard Combined License Technical Report Number 26. Revision 1 of this technical report seeks to clarify the ITAAC table 2.2.3-4 for screen sizing and add a figure from Tier 1 that was previously not captured as an affected figure. Changes to the Design Control Document identified in Technical Report Number 26 are included in the proposed amendment to the design certification (DCD Revision 16). This report is submitted as part of the NuStart Bellefonte COL Project (NRC Project Number 740). The information included in this report is generic and is expected to apply to all COL applications referencing the AP1000 Design Certification.

The purpose for submittal of this report was explained in a March 8, 2006 letter from NuStart to the U.S. Nuclear Regulatory Commission.

Pursuant to 10 CFR 50.30(b), APP-GW-GLR-079, Revision 1 and APP-GW-GLR-079-NS, Revision 1, "AP1000 Verification of Water Sources for Long-Term Recirculation Cooling Following a LOCA," Technical Report Number 26, are submitted as Enclosures 1 and 2 under the attached Oath of Affirmation.

Enclosure 1 contains sensitive material relative to the physical protection of an AP1000 Nuclear Plant that should be withheld from public disclosure pursuant to 10 CFR 2.390(d). Enclosure 2 is the redacted version of Enclosure 1 with the sensitive material relative to the physical protection of an AP1000 Nuclear Plant withheld from public disclosure pursuant to 10 CFR 2.390(d).

It is expected that when the NRC review of Technical Report Number 26 is complete, COL Information Item 6.3-2 will be considered correct for COL applicants referencing the AP1000 Design Certification.

Questions or requests for additional information related to the content and preparation of this report should be directed to Westinghouse. Please send copies of such questions or requests to the prospective applicants for combined licenses referencing the AP1000 Design Certification. A representative for each applicant is included on the cc: list of this letter.

D079
D063

Westinghouse requests the NRC to provide a schedule for review of this Technical Report within two weeks of its submittal.

Very truly yours,

A. Sterdis, Manager
Licensing and Customer Interface
Regulatory Affairs and Standardization
