Subject: (NOTE: This will be used as the Documents Title in ADAMS)	5/8/07 Amendment Request	
Summary:	<p>The Navy's amendment request was for an amendment to the MML to allow for a one time contaminated soil removal at a facility in Dahlgren, VA, due to the immediate availability of funding and trained contractors at the site. The licensee submitted a draft work plan that was developed for future use once a decommissioning plan had been approved. It was submitted containing discussion of final release and final status surveys. It was the Navy's intent for the NRC to evaluate the soil removal portion of the plan and they did not re-work the plan in the interests of saving time and money. The Navy was asked to provide clarification and they did so via a letter dated June 7, 2007.</p>	
Action Required:	Clarification required for amendment request.
