

U.S. NUCLEAR REGULATORY COMMISSION

Date: June 20, 2007

TELEPHONE CONVERSATION RECORD

Time: 11:00

Mail Control N/A License No(s) 29-30940-01 Docket No(s) 03036639
 or Report No(s).

Name of Licensee: Atlantic Engineering Laboratories, Inc.

Name of Participant(s): Christopher O'Malley, Radiation Safety Officer
 Steven R. Courtemanche, Health Physicist, NRC, RI

Telephone No. 732-815-0400
 610-337-5075

Subject: Change of Location of Use W/O an Amendment.
 (NOTE: This will be used as the Documents Title in ADAMS)

Summary: I spoke with Mr. O'Malley about the licensee's change in location of storage listed in the license. He stated that he had spoken with a person in LAT who had stated that they would need to submit a letter documenting the change so that an amendment could be processed. He was not informed that the amendment would have to be processed before he could move. The move occurred five days ago and he sent in the request three days ago. His current location of storage is at 41 Murray Street, Rahway, New Jersey. The former location is unoccupied and I told Mr. O'Malley that he should inform the owner of the building that the space is not available for reuse until such time as the NRC determines that it is free of contamination. Mr. O'Malley would like the amendment processed as quickly as possible because the manufacturer is refusing to ship him any new gauges until such time as his current location is authorized as a location of storage. He agreed to fax in a copy of the amendment request.

Action Required: Inform Branch 2 of the above issues for possible inspection.
