

August 29, 2007

APPLICANT: Westinghouse

SUBJECT: SUMMARY OF THE JUNE 19, 2007, CATEGORY 1 PUBLIC MEETING WITH WESTINGHOUSE REGARDING REVISION 16 TO THE AP1000 DESIGN CONTROL DOCUMENT (DCD)

On June 19, 2007, a public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) and representatives of Westinghouse Electric Company, at the Westinghouse offices located at 12300 Twinbrook Parkway, Rockville, MD. The purpose of the meeting was to discuss the content of Revision 16 to the AP1000 Design Control Document (DCD) which was submitted to the NRC by letter dated May 26, 2007. A list of meeting attendees is included as Enclosure 1. Enclosure 2 contains Westinghouse's meeting handouts which can be accessed through the Agencywide Documents Access and Management System (ADAMS). This system provides text and image files of NRC's public documents. The handout mentioned above may be accessed through the ADAMS system under Accession No. ML071730377. If you do not have access to ADAMS or if there are problems in accessing the handouts located in ADAMS, contact the NRC Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to pdrc@nrc.gov. A summary of the meeting is included below.

The meeting covered a review of the contents of Revision 16 to the AP1000 DCD, and the general strategy to be employed by Westinghouse and the NRC staff in the review of the associated Technical Reports as they relate to issuance of an amendment to the AP1000 Design Certification. Some of the items identified to expedite NRC review include: 1) completion of 10 technical reports that still need to be submitted to NRC; 2) development of a red-line strikeout version of Rev 16 which would be useful as a reviewer aid; and 3) development of a reviewer roadmap of DCD sections changed versus technical report numbers. Westinghouse agreed to evaluate whether these items could be provided to the NRC.
