Subject: **QUALITY MANAGEMENT PLAN**

Dear Sir or Madam:

We have completed the revision of our Quality Management Plan and I am sending it to you for review. Please reference NRC Docket number 71-0900.

The changes to our program are to bring our QMP into compliance with NQA-1-2000; specifically Requirement 3, Design Control; Requirement 7, Control of Purchased Items and Services; and Requirement 11, Test Control. All other changes are clarifying in nature and do not change original intent. We are awaiting your approval prior to implementation of revision 8.

Thank you in advance for your efforts in providing a timely review of this document.

Sincerely,

A handwritten signature in black ink, appearing to read 'P. Harvey'.

Preston Harvey
Manager, Quality Assurance
