RE: NRC License #32- 00426-02

Dear Licensing Agent:

We are in the process of changing use of one of our buildings where we currently have secured radioactive materials waste storage and would like to move our small amount of waste to our Waste Storage Bunker. The Waste Storage Bunker is more secure and the bunker was built to standards appropriate for waste storage including a fire suppression system and containment. The radioactive waste we have on site is stored in a steel drum which we are proposing be moved to the Waste Storage Bunker. The attached diagram is of the Waste Storage Bunker where we propose to move the radioactive materials waste.

Your assistance in this matter is greatly appreciated. If you have **questions** or **need** additional information, please contact me or Sabrina **Pittillo**, Radiation **Safety Officer at 252-728-8718**.
