Subject: EIR for waste storage.

2007 JUN 25 PM 2: 26

Dear NRC Commissioners ,

Increasing nuclear waste at
the Diablo Canyon Power Plant is a mounting problem.

This becomes ground zero
Number 1. In 1957 at a Soviet Waste Center, Kiskym, there was a

catastrophic explosion. 50
square miles and thousands of people were destroyed. It is

believed the nuclear waste
caused the accident, which resulted in a waste land.

So a complete EIR is
necessary. Please serve the public's interest and do a thorough
safety investigation.

Sincerely,

Judith

B Evered
