Robyn,
 I will try to get all those answers for you by tomorrow. Would 10am on Friday work for you?

Thanks,
 jessie

 Friday will work. I'm in the field tomorrow. I'd like a shapefile of the
 transmission lines if possible. How are wetlands crossed (what type of
 vehicle)? Are wetlands mowed in any areas? What herbicides are used in
 wetlands? In general how many dead trees are removed each year along the
 transmission line? Is all other vegetation management done to brush and
 saplings or are trees >5 inches dbh removed regularly? What time of year
 are trees removed?

 Re: Fitzpatrick BA

Robyn,
I'm in on Thursday and Friday so just let me know a good time for you.
Is there anyway you could give me a headsup about the comments/questions
so I can have the right people there? If not, I understand.

Thanks for the quick response,
Jessie

Hi Jessie,
I have several comments/questions on the BA that I'd like to talk to
you
about before drafting a letter. If you're in Friday, that would work,

otherwise, I won't be in until July 9th.
