After my discussion with you and you informing me that this was, in fact, an EDO responsibility, as discussed in MOA between INPO and NRC dated 11/14/05, I sent an e-mail to all the Regions requesting plant and dates that INPO can accompany a P I & R inspection. All regions responded with options. These options were forwarded to INPO and INPO selected accompanying Region-IV PI & R inspectors to Grand Gulf the weeks of October 9 and 29.

Steve

After we discussed this issue in May, NRR generated a Yellow Ticket for DIRS to coordinate INPO's request to observe a PI&R inspection. As we mutually agreed, the NRC/INPO MOA and the EDO internal procedure indicate that such coordination is an OEDO function. As such, you performed the necessary coordination. Thank you.

Can you please send a reply to this email with some detail of what has been coordinated and when so that I may have enough information to close the ticket?

Thank you
Terry
