Conversation with Nestor Corella, (NC) RSO

The reviewer called NC on May 30, 2007, to determine how many gauges the licensee was applying for. NC stated that they would have 1 Troxler 3440 and 1 Troxler 3450. For additional devices, the license will be amended. No other information was necessary for issuance of this license.

James Mullauer, 5/30/07
