Dear Mr. Sir or Madam:

03020159

EnergySolutions provides a status update for the Dominion Nuclear Connecticut - Millstone Power Station work performed under the provision of our US NRC Materials License No. 39-23004-01.

The Millstone Power Station reactor vessel head (Shipment No. 0845-18-001) arrived at the EnergySolutions Waste Disposal Facility located in Clive, UT on June 12, 2007. This was the third and final shipment under this project and all activities performed under this license have been completed.

If you have any questions, please contact Mark Whittaker at (803) 758-1889 or me at (803) 541-5011.

Sincerely,  
Chem-Nuclear Systems, LLC

Jimmy Still  
Licensing Manager
