Re: Clarification of form NRC 314

Date: June 29, 2007

This statement is to clarify section C of form NRC 314 for the termination of license # 34-31170-01. To the best of my knowledge, under the current and all previous licenses, byproduct material exclusively in sealed form was used at 3611 Market Street, Philadelphia, and no leaking sources have ever been identified. The results of the latest leak tests for sources stored and used at that address were forwarded to NRC on June 5, 2007.
