Please Docket in Pathfinder Lucky MC

>>> Bob Evans 05/10/2007 10:43:28 AM >>>

During last week's inspection of the Pathfinder Mines Lucky Mc site, we discovered three license conditions that are either in error or out of date. The findings are listed below:

1. License Condition 34 mentions a biweekly inspection of pond dikes. This condition cannot be implemented because the referenced pond and associated dikes have been reclaimed. The licensee discontinued these inspections in 2004.

2. License Condition 47 references LC 48 which has been deleted. This condition previously specified the LLD requirements for environmental monitoring samples.

As a side note, there is no license condition that specify lower limits of detection for groundwater sampling (LC 60). To 'fix' this problem, you should add a new condition that specifies the LLDs for sampling. Other licenses reference RG 4.14, Section 5 for the LLDs.

3. License Condition 61 references LC 54 which has been deleted.

I suggest you administratively correct these errors during the next routine revision of the license when the financial assurance is updated.

ENJOY!!
