SUBJECT: WILLIAMSON MEMORIAL HOSPITAL, ACCEPTANCE OF NOTIFICATION, AMENDMENT NOT NEEDED, CONTROL NO. 140683

Dear Mr. Damron:

10 CFR 35.13(e) states, in part, that a licensee shall apply for and must receive a license amendment before it adds to or changes the areas of use identified on the license, **except for areas of use where byproduct material is used only in accordance with either 35.100 or 35.200**. Although an amendment is not needed, 10 CFR 35.14(b)(4) requires that you notify the NRC of such changes.

In accordance with 10 CFR 35.14(b)(5), your facsimile dated June 20, 2007 is accepted as notification that you have updated your area survey map.

Please assure that future amendment requests and notifications are signed by a member of senior management.

Thank you for your cooperation.

Sincerely,

Original signed by Sandra Gabriel
