Beaver Valley Power Station (BVPS) Operating Licenses DPR-66 (Unit 1) and NPF-73 (Unit 2) Amendment Nos. 278 (Unit 1) and 161 (Unit 2) were issued by NRC letter dated February 21, 2007. These amendments implement the Improved Technical Specifications (ITS) and consolidate the BVPS Unit 1 and Unit 2 Technical Specifications into a single document applicable to both BVPS units. In the February 21, 2007 letter issuing these amendments, the NRC requested BVPS to submit a letter within 14 days after the implementation date to inform the NRC when the amendments were implemented.

The purpose of this letter is to inform the NRC that the ITS conversion Amendment Nos. 278 (Unit 1) and 161 (Unit 2) were implemented at both BVPS units on June 23, 2007.

No regulatory commitments are contained in this submittal. If you have questions or require additional information, please contact Mr. Thomas A. Lentz, Manager - FENOC Fleet Licensing, at (330) 761-6071.
