Subject: Supplemental Request for Information ESBWR Chapter 16, RAI 16.2-119

Joel,

Please respond to the following supplemental request for information on RAI 16.2-119. Please let me know your schedule for responding to this request.

Thanks,
Chandu

Comment on response to RAI 16.2-119 (MFN 07- 305, June 4, 2007):

In the response to RAI 21.6-91 (MFN 07-256), GE states, "Changes to DCD Tier 2, Figure 5.2-4 will be made in response to this RAI. Figure 5.2-4 will be updated based on the result of a TRACG analysis that uses the following input files: MSIVF_EOC_NOFW.INP and SCRAM_PRESS_8GROUPS.TDT."

Since GE proposes to include only 1 SRV in the ESBWR Technical Specifications for overpressure protection, GE should verify that the input decks referenced above used to generate the Figures 5.2-4 in DCD Tier 2 only take credit for 1 SRV.
