Subject: Licensee's record retention frequency needed to be changed  
 (NOTE: This will be used as the Documents Title in ADAMS)

Summary: In the licensee's application dated 6/13/2007, they committed to retain receipt, transfer and disposal and physical inventory records for at least 3 years. Physical inventory records need to be retained for 5 years and receipt, transfer and disposal records should be maintained for cradle to grave. The licensee also committed to annual refresher training and survey meters at each job site which is much more prescriptive than the NUREG-1556 guidance. The licensee will revise to give his radiation protection program more flexibility.

Action Required: Wait for response from licensee
