JUL 02 2007

Prasert Vijithenjaronk, M.D.  
Radiation Safety Officer  
Branson Heart Center  
1150 State Highway 248  
Branson, MO 65616

Dear Dr. Vijithenjaronk:

Enclosed is Amendment No. 08 to your NRC Material License No. 24-32116-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers. If you have questions concerning this amendment, please contact me at either (630) 829-9841 or (800) 522-3025, ext. 9841.

This refers to the letter dated April 24, 2007, informing the NRC of the transfer of ownership and control of NRC Byproduct Material License No. 24-32116-01. Based upon our review of this letter the NRC consents to the change of ownership transaction as stated.

As a point of clarification, however, please note that records important to decommissioning must be transferred to the new owner on the transaction date, even though "no decommissioning is required at this time," as stated in the above letter. The records important to decommissioning are described in section 8.7, Item 5 in NUREG 1556, Vol. 9, Rev. 1. All licensees must maintain such records and a review of this section will best illustrate the reason why this is true, i.e., such records are typically the records you already maintain showing receipt, use, storage and disposal of licensed materials, among other things. A copy of NUREG 1556, Vol. 9, Rev. 1, should already have been sent to you and is available on our website at <http://www.nrc.gov>.

Please note that we have reformatted Subitem No. 7 and 9 at this time to remove all references to excluded authorizations, including but not limited to authorizations such as "generators, xenon-133, aerosols, cardiovascular clinical procedures, etc."

Please be reminded, however, that you are still bound by the restrictions imposed by the excluded authorizations contained in documents incorporated into your license in Condition No. 15 of your license.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This

could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".

Colleen Carol Casey
