Name of Licensee: U.S. Capitol Police

Name of Participant(s): Robert Ford, Associate Director, Physical Security Division

Telephone No. 202-593-7053

Subject: Status of Radiation Safety Officer and management oversight
(NOTE: This will be used as the Documents Title in ADAMS)

Summary: Hazardous Material Response (HMR) Program and their Radiation Safety Officer (rso) is now responsible for Radiation Safety for all radioactive materials under the Police Department. The HMR program is responsible for the radiation safety of all radiation producing units in the Department. Mr. Ford stated management oversight and Radiation Safety oversight were intended to be provided by the HMR and the Uniformed Services Bureau would operate the unit. Mr. Ford stated that his impression was the RSO responsibilities had been transferred, but had no knowledge of any paperwork having been generated requesting the transfer. Neither of these units fall under the purview of Mr. Greeley, thus management will have to make a collaborative decision. Mr. Ford stated that the current RSO no longer reported to his Division, but rather to the Uniformed Service Bureau. He stated that the RSO was and had been on extended leave, and had no direct knowledge of return. Matters of radiation safety are being performed by a supervisor, but not all responsibilities are being accomplished.

Failing to have the named person as the Radiation Safety Officer for an extended time was identified as an apparent violation.
