Rockville, Maryland 20852-2738

Dear Mr. Smith:

TRANSITION OF REGULATORY OVERSIGHT RESPONSIBILITIES FOR BUILDING X-3346 AT THE AMERICAN CENTRIFUGE PLANT

The Department of Energy (DOE) has received a letter dated June 26, 2007, from United States Enrichment Corporation (USEC) Inc. requesting transition from DOE Oversight to Nuclear Regulatory Commission (NRC) Oversight of the X-3346 Feed and Customer Services Building. USEC Inc. has affirmed that the potentially contaminated areas from the X-3346 Building and surveys indicate no elevated levels of radioactivity.

In accordance with the April 13, 2007, Memorandum of Understanding between DOE and the NRC, "Cooperation Regarding the American Centrifuge Plant in Piketon, Ohio," this letter serves as notification of the transfer of regulatory oversight responsibilities for the above facility from DOE to the NRC. Per our discussions, the transition will occur on July 9, 2007, at 12:01 p.m. USEC Inc. is hereby notified by copy of this letter.

If you have any questions concerning this letter, please contact me at (865) 241-8277.

Sincerely,

A handwritten signature in black ink, appearing to read "R. M. DeVault".

Randall M. DeVault
Regulatory Oversight Manager
Office of Assistant Manager
for Nuclear Fuel Supply
