RE: License #37-11866-01

03003151

To Whom It May Concern:

Lancaster General Hospital would like to request amendment to the above-noted materials license for the following:

We would like to add an additional 35.300 authorization to a current authorized user on our license. Edgar C. Fearnow, III, MD, currently has authorization for 35.300 use limited to oral administration of I-131 doses greater than 33 mCi. We are requesting that he be given the additional authorization for I-131 administrations less than 33 mCi. An NRC Form 313A (AUT) is attached, which illustrates the pathway of documenting training and experience he has chosen, with appropriate signatures and information.

Thank you for your attention to this matter. If you have any questions, please direct them to our Radiation Safety Officer, Mr. Anthony Montagnese, at 717-544-4384.

Sincerely,

Kathleen L. Harrison
Vice President, Operations
