Ms. Tara Weldner
Nuclear Regulatory Commission

Dear Ms. Weldner:

I have been informed that an error was made when I filled out my preceptor certification for Dr. Amir Baroull's application to be added to the radioisotope license at Chambersburg Hospital in Chambersburg, Pa. I inadvertently transposed the number of classroom hours of training with those of classroom work. It should correctly be 220 hours of classroom training and 700 hours of supervised clinical work.

In addition, I am enclosing a copy of a letter from our Radiation Safety Officer, Dr. Sherman Heller, confirming my broad scope authorization on our Broad Human Use License (NY City #75-2885-01).

I am sorry for the error and hopefully this will serve as an adequate correction.

Sincerely yours,

Leonard M. Freeman, M.D.

SHERMAN I. HELLER, Ph.D.
Radiation Safety Officer
Physicist, Nuclear Medicine

MONTEFIORE

October 25, 2004

To Whom It May Concern:

Dr. Leonard M. Freeman is an authorized user under NYC Radioactive Material License (number 75-2885-01). Since this is a broad scope license, name of physicians are not listed in the license even though they are authorized users. Enclosed is the original application of the Radioactive Material License. Please feel free to contact me if there are any questions.

Sincerely,

Sherman Heller, Ph.D.
Radiation Safety Officer
