Ms. Jessica M. Glenny,  
Licensing Section  
Division of Spent Fuel Storage and Transportation  
Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

**REFERENCES: (1)AMENDMENT TO US NUCLEAR REGULATORY COMMISSION CERTIFICATE OF COMPLIANCE NO. 9204 FOR THE MODEL CNS 10-160B SHIPPING CASK TAC L 24086**

Dear Ms. Glenny:

**SUBJECT: CHANGES AND ADDITIONAL INFORMATION**

As discussed in the conference call of July 16<sup>th</sup>, EnergySolutions is providing two changes to our amendment request and additional information concerning the characteristics of the elastomer seals. These items are provided as attachments to this letter and described below:

Attachment 1 – an edited Sheet 2 of Drawing C-110-D-29003-010. Please replace the previously submitted Sheet 2 with this one.

Attachment 2 – an edited page 3-5. Please replace the previously submitted page 3-5 with this one.

Attachment 3 – a set of information taken from manufacturers literature and a test report from the TRUPACT-II SAR providing data on the characteristics of the seal materials.

Each attachment will be sent as a separate .pdf file.

Should you or members of NRC staff have questions about this information or the requested SAR revision, please contact me at (803) 758-1898.

Sincerely,

A handwritten signature in black ink that reads "m s Whittaker".

Mark Whittaker, CHP  
Engineering & Licensing
