NAME OF PERSON(S) CONTACTED OR IN CONTACT

Angelica Guidry
Nuclear Services Specialist

ORGANIZATION (OFFICE, DEPT. ETC.)

Thermo Electron Corporation
Sugar Land, Texas

TELEPHONE NO.

713-272-0404
FAX -2273

SUBJECT

Control No. 316240 – Re- request by Arkema Inc., Riverview, Michigan, License Number 21-32364-01, to terminate subject license, based on their transfer of all remaining licensed material (sealed sources of Cs-137 and Ni-63) to Thermo Measuretech (TM), under TM's Texas Radioactive Material License L03524.

SUMMARY

In our telephone conversations on this date, I related that Arkema had not provided a copy of TM's license so that I could verify TM's authorization to receive both the radionuclides and activities transferred to them as documented on the copies of records submitted to us, including shipping papers and acknowledgment of receipt records. Further, in my attempt to verify TM's license authorization with the State of Texas, I learned that this information was not immediately available from them due to recent flooding activity. Therefore, I requested, and Ms. Guidry agreed to send me by facsimile, a copy of TM's Texas License L03524 so that I could verify their authorization to receive the materials transferred to them by Arkema Inc.

ACTION REQUIRED

Ms. Guidry agreed to send to me (as information for Control No. 316240) by facsimile, at 630-515-1078, a copy of their Texas Radioactive Material License L03524, or at least that portion of the license that verifies their authorization to receive and possess the sealed sources and activities transferred to them by Arkema Inc..

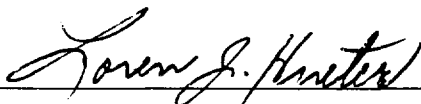

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this conversation record will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
