To Whom it may concern:

This letter is regarding the theft of A Niton Analyzer model#XLP818 serial#757 owned by myself, Buck Jones. The theft occurred in Humble, Texas at the Country Inn & Suites. The Niton accidentally got left in the back seat of my brother, Joe Jones truck before going to Humble, Texas. Joe got a room at Country Inn and before checking out he went to his truck and noticed that his truck had gotten broken into. He then went inside and found that the Niton was missing along with many of his own personal items. He then went inside the lobby to call the police dept. The police did come out and he filled out a report. We still have not received a report and are still waiting. In the mean time Joe notified me and I then called Us Nuclear to report the theft. Approx. 48 hours later someone had found the Niton in a field and reported it. It was then sent back to me and it seems to be in good working order, Thank God! I have it now and it is safe. As I mentioned earlier we are still waiting on the police report but if you need anything else you may contact me on my cellular phone listed above or at my home (317) 858-9371. Also, I spoke to Betty and Melissa at the records division at the Humble Police Dept. The Phone # is (281) 446-7127 if you should need it for any reason. Also, I would like to note that my brother Joe's truck was locked and the windows were up completely and locks and windows are all power.

Thank You

*Buck Jones*
