Jeff;

I'll check with the staff and see what we can tell you this afternoon. Thanks.

I've seen some news accounts that Areva has told NRC it plans to build a
uranium enrichment plant in the U.S (see one such account below).

More specifically, I understand that the proposal may have come from a
joint venture of Areva and Uruenco called enrichment technology corp.
(ETC).

Do you have any letters, proposals, and paper work addressing this that
I could use to write a story? Failing that, could someone confirm this
over the phone to me?

Thanks

Areva has presented plans to construct a centrifuge uranium enrichment
plant in the USA to the Nuclear Regulatory Commission. Work on site
selection would begin imminently with the goal of starting construction
on a new plant in 2010.
