Notification of Intent to Submit a Combined License Application

- References:
- 1) Letter from Don Gillispie (Alternate Energy Holdings) to U.S. NRC, "NRC Regulatory Issue Summary 2007-08, Updated Licensing Submittal Information to Support the Design-Centered Licensing Review Approach," dated May 14, 2007
 - 2) Letter UN#07-005, from R. M. Krich (UniStar Nuclear) to U.S. NRC, "UniStar Nuclear Project Nos. 733 (AREVA NP), 746 (UniStar Nuclear), 750 (AmerenUE), and 752 (Amarillo Power), Response to Regulatory Issue Summary 2007-08, Updated Licensing Submittal Information to Support the Design-Centered Licensing Review Approach," dated May 31, 2007

In our May 14, 2007 letter (Reference 1), Alternate Energy Holdings, Inc. (AEHI) stated that the reactor design to be selected for a potential new nuclear power plant to be sited at Bruneau, Idaho would be either a US-APWR or a U.S. EPR. The purpose of this letter is to advise the NRC that AEHI has selected the U.S. EPR and that together with UniStar Nuclear, LLC; we intend to submit a Combined License (i.e., COL) application for a single unit at the Bruneau, ID site. At this time, we expect to submit the application during the fourth quarter of calendar year 2008 (i.e., the first quarter of NRC fiscal year 2009). A decision to build a new nuclear power plant has not been made at this time.

This letter updates the information in our May 14, 2007 letter (Reference 1). AEHI's May 14, 2007 response to requests concerning generic issues such as membership in a design-centered working group and the portions of a reference COL application that will be referenced in the AEHI COL application should be updated with the responses to these requests provided by UniStar Nuclear, LLC in its letter dated May 31, 2007 (Reference 2). All other AEHI responses remain unchanged at this time. Accordingly, UniStar Nuclear is the authorized agent and primary point of contact between AEHI and the NRC regarding this project. The current UniStar Nuclear point of contact, for both telecommunication and written correspondence, is George Wrobel. George Wrobel can be contacted at (585) 771-3535 or at george.wrobel@constellation.com. Written correspondence should be addressed to George Wrobel, 750 E. Pratt Street, 14th Floor, Baltimore, MD 21202.

If you have any questions or need additional information, please contact me.

Respectfully,

Don Gillispie
Chairman and CEO
