Subject:       License Amendment Request (LAR) 9261-5 to HI-STAR 100 Certificate of  
                  Compliance No. 9261

Dear Sir:

Via letter [3], the SFST provided a Request for Additional Information (RAI) on the proposed amendment to the HI-STAR 100 Certificate of Compliance. Holtec plans to submit the responses to the RAI on August 3, 2007. At this time Holtec will submit the responses to the questions, the revised Proposed CoC and Technical Specifications, and modifications to the Safety Analysis Report sections as necessary.

As discussed in an NRC Public Meeting [4] and subsequently in a teleconference [5] Holtec plans on submitting a structural benchmarking report of LSDYNA on Docket No. 9261 as well as Docket No. 9325. Holtec will submit this report as soon as possible to ensure the review of LAR 9261-5 can proceed in a timely manner.

Sincerely,

Stefan Anton, Dr.-Ing.  
Licensing Manager, Holtec International
