I have attempted to get a bottom line answer from "HEALTH Legal Services" but have been semi unsuccessful.

At this juncture the issuing of an order by HEALTH would not be a welcomed option due to internal/state requirements.

I was unable to secure any citations to State statutes that would prohibit the "requirement to collect" criminal histories utilizing fingerprints or to use this information. However I was able to find some precedent set in other state regulations that require background checks be performed on certain types of employment.

I am awaiting the possibility of a more definitive response from legal but that will not be forthcoming to meet your response deadline.

The preference on the part of this Office would be to address the matter in license condition.

Please confirm receipt
Thank you

JACK
