SUBJECT: INSPECTION 03037278/2007001, UNION CARDIAC CENTER, UNION, NEW JERSEY SITE

Dear Dr. Lee:

On June 26, 2007, Steven Courtemanche of this office conducted a safety inspection at 2052 Morris Avenue, Union, New Jersey of activities authorized by the above listed NRC license. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector and interviews with personnel. The findings of the inspection were discussed with you at the conclusion of the inspection on July 25, 2007.

Within the scope of this inspection, no violations were identified. However, after our discussion with you, it was determined that licensed activities were never initiated and a decision had been made by your organization not to start licensed activities. A commitment was made by you to submit a request to terminate which, as of this date, has not been received. In addition to transmitting the results of the inspection, this letter serves as a reminder to you of the above commitment. Continued possession of the license will result in invoices for fees on an annual basis even if you do not possess licensed materials. Enclosed is an NRC Form 314 for your use in terminating your license.

Current NRC regulations are included on the NRC's website at www.nrc.gov ; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. The current NRC Enforcement Policy is included on the NRC's website at www.nrc.gov ; select **About NRC; Organization & Functions; Office of Enforcement; About Enforcement**; then **Enforcement Policy**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).
