I would also like to comment on the record keeping discrepancies noted in your report between the official agency property records and the Office of Investigations' (OI) internal records regarding firearms issued to OI agents. As stated in the OIG report, upon further review by OI and OIG, OI internal records were found to be thorough and complete with no firearms unaccounted for. The sixteen Smith & Wesson firearms noted in the OIG audit report were destroyed in September 2006 in accordance with Federal guidelines and this disposal was properly documented in OI records. This information was subsequently updated in the official agency property records.
