Docket No. 52-010

U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, D.C. 20555-0001

**Subject: NRC Request for Additional Information Letter No. 101 Related to
ESBWR Design Certification Application – RAI Response Schedule**

GEH has reviewed the RAIs transmitted via the Reference 1 letter related to DCD Tier 2 Chapters 3, 6, 15, 19, 21 and 22 (RTNSS). As a result of this review, we have determined that the scope of these RAIs will not accommodate response by the NRC requested date of July 30, 2007. Therefore, we would like to establish RAI response submittal dates as reflected in Enclosure 1. We are still in the process of determining submittal dates for RAIs 3.4-10 and 3.4-11, and will communicate those dates shortly.

If you have any questions or require additional information regarding the information provided here, please contact me.

Sincerely,

James C. Kinsey
Project Manager, ESBWR Licensing
