

August 9, 2007

J. M. McKenzie, Director  
Regulatory Affairs  
Naval Nuclear Propulsion Program  
Washington Navy Yard  
Washington, DC 20976-0001

SUBJECT: SITE VISITS TO MODEL ROOM AND NAVAL REACTORS FACILITY

Dear Mr. McKenzie:

Thank you for your letter dated July 13, 2007, inviting staff from the U.S. Nuclear Regulatory Commission (NRC) to visit naval facilities. These visits will greatly assist our preparation for a review of a License Application from the U.S. Department of Energy to construct a geologic repository at Yucca Mountain, Nevada. During a July 20, 2007, telephone call with N. King Stablein and Christopher Ryder, Robert Gisch, of your staff, suggested that we tour the Model Room at the Washington Navy Yard on October 2, 2007, and the Naval Reactors Facility (NRF) at Idaho National Laboratory in Idaho on October 18, 2007. We accept your invitation for those dates. We understand that attendance will be limited to NRC staff with the appropriate security clearance and need-to-know.

Touring the Model Room and the NRF will allow us to observe equipment and operations and gain an appreciation of the activities necessary to manage naval spent nuclear fuel. We would not be performing any inspection activities during the tours nor analyses after these tours. We anticipate that these observational tours will allow us to identify specific technical areas where we might like to have followup discussions with naval personnel in order to obtain additional, more detailed background information.

Please have your staff contact Robert K. Johnson at (301) 492-3175 or Christopher Ryder at (301) 492-3189 to arrange the details of travel and accommodations.

Sincerely,

/RA/

Jack R. Davis, Deputy Director  
Technical Review Directorate  
Division of High-Level Waste Repository Safety  
Office of Nuclear Material Safety  
and Safeguards

cc: See attached list.
