SUBJECT

Control No. 316105 – Regarding amendment request to renew License No. 13-26785-01 by application and letter both dated 3-13-07 and additional information submitted by facsimile on 5-30-07.

SUMMARY

We discussed the need for the licensee to further respond to three deficiencies/omissions in the licensees response (by license renewal application dated 5-29-07) which in turn was a response to deficiencies identified in our telephone conversation on May 24, 2007, regarding initial license renewal application dated 3-13-07. Specifically, in Item 10 (which has multiple components) on page 2 of Attachment A, the following three problems were noted:

1. A response was not provided for "Occupational Dosimetry";

2. Several important items were not addressed (apparently due to omission in copying a line from the guidance document) in the response provided for "Non-Routine Maintenance Operations";

3. A response was not provided for "Fixed Gauges Used at Temporary Job Sites".

Please **provide written response to the three items above as additional information to Control No. 316105** and **send it to me by facsimile (630-515-1078). No follow-up hard copy is needed.** Any questions, please call me at 630-829-9829. Also, **please call me right after you have sent the response**.
