Subject: REQUEST FOR NRC CONCURRENCE TO DISPOSE OF MTW WASTE AS 10 CFR
40.13 UNIMPORTANT QUANTITIES

Dear Mr. Raddatz:

Honeywell Specialty Materials Metropolis Works (MTW) is requesting NRC concurrence to disposition scrap materials under 10 CFR 40.13 "Unimportant Quantities of Source Material" provision using the guidance provided in NUREG-1640 "Radiological Assessment for Clearance of Equipment and Materials from Nuclear Facilities".

Currently MTW is negotiating with Waste Control Specialists LLC (WCS) in Texas for disposal of these materials. We have presented a monitoring plan to WCS. WCS has approved the plan and discussed it with the Texas Commission on Environmental Quality who has given an unofficial approval incumbent upon MTW receiving NRC concurrence for these scrap materials under the provisions of 10 CFR 40.13. Upon concurrence from the NRC, the Texas Commission on Environmental Quality will also concur and allow the shipment material to WCS.

Accordingly, and in consideration of previous reviews and approvals by NRC (e.g., August 27, 1999 NRC letter to Mr. J. William Lessig and July 19, 2000 NRC letter to Mr. J. William Lessig) we hereby request NRC concurrence with MTW's intent to ship scrap material as unimportant quantity pursuant to 10 CFR 40.13.

If you have additional questions, please contact Mr. Larry Parscale, Regulatory Affairs Manager, at 618-524-6221.

Sincerely,

David B. Edwards
Plant Manager

G. D. B. E.
