SUBJECT: VERMONT RADIOLOGISTS, LICENSE AMENDMENT, CONTROL NO. 140837

Dear Dr. Neel:

This refers to your license amendment request dated July 12, 2007. Enclosed with this letter is the amended license. Please note that Dr. Foder was not added as authorized user because your amendment request did not provide adequate documentation to add the individual as authorized user of byproduct material on your license. Based on a phone conversation with Ms. Joy Cayea of your facility on August 2, 2007, this individual will be the subject of a future amendment request from you after the appropriate documentation is available.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,
